PROFESSIONAL EXPERIENCE

HDFC BANK — <i>Banking Operations Associate</i>	Oct 2025 – Present Erode, India
- Execute day-to-day banking operations, customer support, and seamless financial transaction processing with zero tolerance for compliance error. - Verify critical documentation and ensure high accuracy and adherence to strict regulatory banking procedures. - Utilize MS Excel and analytical tools for operational reporting and workflow coordination across internal departments. - Leverage exceptional attention to detail and process-driven discipline to streamline complex manual validation steps.	

FEATURED FULL-STACK PROJECTS

01. Shree Lakshmi Traders — GST Billing Software	In Progress
Tech Stack: React, TypeScript, Supabase, Tailwind CSS	
- Architecting a GST-compliant billing, invoicing, and inventory management web application for retail trading businesses. - Integrated features include real-time inventory tracking, customer management, automated sales reports, and print-ready invoices. - Designed a high-density analytics dashboard using Supabase for seamless backend state persistence.	
02. Inventory Management System	In Progress
Tech Stack: React, Node.js, MySQL, Tailwind CSS	
- Developing a full-stack stock, purchase, and supplier management system designed for small and mid-sized enterprises. - Building modules for dynamic product cataloging, sales tracking, purchase orders, and supplier database records.	

03. AI Chatbot Platform Planned

Tech Stack: React, Node.js, Claude API, Supabase

- Designing an intelligent assistant platform featuring document Q&A (PDF chat), image analysis, and searchable knowledge bases using modern AI APIs.

04. Hospital Management System Planned

Tech Stack: React, Node.js, Express.js, MySQL

- Designing an end-to-end clinical management app for doctor scheduling, patient records, appointments, and medical billing.
