

SABARI MURUGAN

Full Stack Web Developer | Prompt Engineer | Banking Tech Specialist

Location: Tamil Nadu, India | Current Role: Assistant Manager – HDFC Bank | Portfolio: [sabari-s-portfolio.vercel.app](#) |
GitHub: [github.com/sabarisasi](#)

BCA graduate with extensive full-stack web development and prompt engineering experience at EDHUNT Infotech (2023–2025) combined with banking domain expertise as Assistant Manager at HDFC Bank. Proven track record of developing complex, scalable web platforms, custom AI prompt workflows, RAG architectures, and business applications. Skilled in React, TypeScript, Supabase, REST APIs, and Gemini AI integration. Seeking high-impact roles in Full Stack Development, AI Application Development, FinTech/Banking Technology, or Business Analysis.

WORK EXPERIENCE

EDHUNT INFOTECH — Full Stack Web Developer & Prompt Engineer

2023 – 2025

- Designed and developed full-stack web applications using React, TypeScript, modern JavaScript, REST APIs, and database solutions.
- Architected advanced AI prompt engineering workflows, persona modeling, RAG systems, and AI assistant interfaces for client applications.
- Collaborated on end-to-end software architecture, code optimization, database integration, and UI/UX design deliverables.

HDFC BANK — Assistant Manager / Teller

Present

- Manage teller operations, high-accuracy financial transactions, cash handling, and compliance with banking standards.
- Provide operational support and customer guidance for digital banking platforms, account management, and financial products.

TECHNICAL SKILLS

Programming / Web: HTML5, CSS3, JavaScript, TypeScript, React, Vite

Backend / Database: Supabase, REST APIs, SQL

AI & Prompt Engineering: Prompt Engineering, RAG Workflows, AI Chatbots, Document Analysis, Gemini API

Tools & Platforms: Git, GitHub, Vercel, VS Code, Jira, Confluence, Bitbucket

Banking & Business: Banking Operations, Digital Banking, BFSI Domain, Business Analysis, Functional Consulting

EDUCATION & ACHIEVEMENTS

BCA (Bachelor of Computer Applications)

2022

Periyar University — **88%**

- SSLC & HSC: Government Boys Higher Secondary School

Awards & Competitions:

- 1st Prize** – Snake Game Designing, Periyar University
- 2nd Prize** – Debugging Competition, Bharathiyar University

CERTIFICATIONS & TRAINING

- Programming Hero – Web Development Certification** (Jan–Mar 2025) — HTML, CSS, JavaScript, Web Apps.
- HDFC ACE Bankers Program** — NIIT University, Neemrana (11th Batch) — Banking Operations & BFSI Systems.

FEATURED PROJECTS

1. FinPilot AI | [Live Preview](#) | [GitHub Repository](#)

AI-powered personal finance platform for analyzing bank statements, categorizing expenses, managing budgets, calculating EMI, tracking bills, and providing personalized financial insights.

[React](#) [TypeScript](#) [Gemini API](#) [FinTech](#)

2. RecruitGPT Pro | [Live Preview](#) | [GitHub Repository](#)

AI-powered career platform for resume creation, ATS optimization, cover-letter generation, mock interviews, career guidance, job tracking, and personalized skill-gap analysis.

[React](#) [TypeScript](#) [AI Workflows](#) [Vite](#)

3. PromptFlow Studio | [Live Preview](#) | [GitHub Repository](#)

AI prompt engineering workspace for creating, testing, comparing, versioning, and evaluating prompts across multiple AI models with structured evaluation workflows.

[TypeScript](#) [Prompt Engineering](#) [AI Evaluation](#)

4. Shree Lakshmi Traders – GST Billing | [Live Preview](#) | [GitHub Repository](#)

Business management system for billing, GST calculations, inventory tracking, customer/supplier management, sales, purchases, invoices, analytics, and operational reports.

[React](#) [GST Accounting](#) [Inventory Analytics](#)

5. Inventory Management System | [Live Preview](#) | [GitHub Repository](#)

Full-stack inventory platform for managing products, stock movements, purchases, sales, suppliers, customers, low-stock alerts, inventory analytics, and reports.

[React](#) [Supabase](#) [SQL](#) [REST APIs](#)

6. AI Chatbot Platform | [Live Preview](#) | [GitHub Repository](#)

Multi-purpose AI assistant platform featuring conversational AI, multiple AI personas, conversation history, document Q&A, knowledge-base management, RAG workflows, and AI assistance.

[React](#) [RAG Workflows](#) [Gemini API](#)

7. Hospital Management System | [Live Preview](#) | [GitHub Repository](#)

Healthcare management application for doctors, patients, appointments, departments, medical records, prescriptions, billing, reports, and role-based workflows.

[React](#) [TypeScript](#) [Healthcare IT](#)

8. Modern E-commerce Platform | [Live Preview](#) | [GitHub Repository](#)

Modern e-commerce platform with product discovery, search, filtering, cart, wishlist, checkout, orders, reviews, customer profiles, administration, and AI shopping assistance.

[React](#) [TypeScript](#) [E-Commerce](#)

9. AI Document Analyzer | [Live Preview](#) | [GitHub Repository](#)

AI document-intelligence platform for uploading documents, extracting information, summarizing content, asking questions, comparing documents, and extracting structured data.

[React](#) [TypeScript](#) [Document Intelligence](#)

10. AI Health Companion (Android App) | [APK Download](#) | [GitHub Repository](#)

AI-powered Android health companion built with Kotlin, Jetpack Compose and Supabase, featuring health tracking, AI assistant, family care, emergency SOS, and premium subscription functionality.
